Wildfires

The CPUC is conducting staff investigations of certain wildfires to assess the compliance of electric facilities with applicable rules and regulations (CAL FIRE determines the sources of ignition of the fires and the way that the fires spread). The wildfires under staff investigation are:

- November 2018: the Camp Fire in PG&E's service territory; and the Woolsey Fire in Southern California Edison's service territory.
- In December 2017, there were the following wildfires in Southern California Edison's service territory: Rye, Thomas, Liberty, and Meyers.
- In October 2017, there were the following wildfires in PG&E's service territory: Cherokee Fire (Butte County); Point Fire (Calaveras County); Adobe, Norrbom, Nuns, Pythian-Oakmond, Pocket, and Youngs Fires (Sonoma County); Sulphur Fire (Lake County); Lobo Fire (Nevada County); La Porte Fire (Butte County); and Patrick and Atlas Fires (Napa County).

On this page you will find information about the CPUC's continual efforts to identify ways to help reduce the likelihood of utility involvement in wildfires, and to help protect consumers.

Public Safety Power Shut Offs (De-Energization)

The State's investor-owned utilities have general authority to shut off electric power to protect public safety under California law. Utilities have recently developed programs to exercise this authority during severe wildfire threat conditions as a preventative measure of last resort. [Read more.](#)

Utility Wildfire Mitigation Plans (SB 901)

On Oct. 25, 2018, the CPUC acted to further protect the state from wildfires related to electric facilities by setting the framework to provide guidance on initial utility wildfire mitigation plans, and inviting the input of all stakeholders in guiding its approach. [Read more.](#)
